

Advanced Reconstruction Courses – Register Today!!

Openings are still available for the 2024 Advanced Reconstruction Courses. To apply for any of the below-mentioned courses, prospective attendees are encouraged to visit <http://latrcc.lsu.edu/> and select the registration link under “News and Events.”

These courses are offered through a grant provided by the Louisiana Highway Safety Commission, and the Traffic Records Coordinating Committee (TRCC). These advanced courses are taught by instructors from Northwestern University’s Center for Public Safety and will be hosted at the Louisiana State Police Training Academy in Baton Rouge.

The courses offer invaluable insights and practical skills necessary for effective collision investigation and reconstruction, ultimately contributing to enhanced public safety on Louisiana’s roadways. Details for each course can be found on the attached flyer.
